## PhilHealth YAKAP: Yaman Ng Kalusugan Program

In the Philippines, our greatest wealth is not what we own, but the health and happiness of our loved ones. PhilHealth YAKAP —Yaman ng Kalusugan Program—is a promise, the government’s heartfelt commitment to every Filipino family. We know that worrying about health can be a heavy burden, so we’ve created a program that proactively cares for you and your family, bringing you peace of mind and a future free from worry. We’re moving from simply treating sickness to nurturing wellness, so you can live a full and vibrant life, far from illness.

### More Than Just a Program, It's Your Partner in Health

You may have heard of our Konsulta program, but YAKAP is so much more. It's an expanded embrace of care that includes everything from Konsulta, plus two new gifts of health: the GAMOT medication program and vital cancer screenings. We've renamed it "YAKAP" to show our commitment to a new way of thinking about health—not as a burden, but as a journey we take together. It's a program for everyone, not just when you're sick, but every day of your life.

### How to Join Our YAKAP?

#### STEP 1

##### Welcome

The first step is to register with a YAKAP Clinic. You can do this easily through the eGov App, the [PhilHealth Member Portal](#), our offices, or directly at a YAKAP clinic.

#### STEP 2

##### Your First Encounter

Your journey to wellness begins with a "First Patient Encounter" (FPE). A compassionate YAKAP physician will guide you through a comprehensive health screening, so we can work together to create a personalized health plan just for you. This is where your benefits come to life.

#### STEP 3

##### Your Personal Path to Wellness

After your FPE, your doctor will give you a roadmap for your health, including prescriptions through the GAMOT App or a referral for the tests you need. We're with you every step of the way.
